Hi Gang
sorry sorry sorry for posing false warning.

Thought I was doing some good, but
was very wrong.
Will be much more careful in the future.

Thank the good LORD for all that you have!!!

Subject: 80 meters...

Sometime after I worked W00ZJ in Lead, S.Dak last night, I heard Jack, W7QQQ working him too. W00ZJ is 88. Jack was using his 813 oscillator to drive some sort of amp which he said he was running 500 watts input. Jack's signal sure sounded nice here. I didn't call him since my wife was watching a tape on the VCR and the HW-16 wipes it out. Doesn't bother the TV set: just the VCR.

So what kinda amp do you use sometimes, Jack?

Am in the market for a mint or near mint, fully functional, non-modified Collins 32V3 transmitter. Please warrant condition and provide bottom line price.

Also, want to purchase a mint or near mint condition, fully functional, non-modified Heath AT-1 transmitter.

My wife, K5KRN, used one as her first transmitter in 1957. My desire for one is primarily nostalgic. It would be given tender, loving care forever.
